WEBINAR HOST - PROFESSIONAL UI/UX

[View Certificate](#)

Tech Friday Webinar – Sriyog Consulting July 4, 2025, 9:00 - 9:45 PM

Link : <https://www.linkedin.com/events/techfriday-professionalui-ux7346509805160673280/comments/>

- Hosted a live webinar on professional UI/UX design concepts, including Apple’s Liquid Glass design and Google’s Material UI.
- Explained UI/UX basics and key Figma features like effects, animations, components, auto-layouts, and variants.
- Did a live demonstration by designing a cosmetic product app from scratch, teaching how to add effects, animations, interactions, and a prototype in Figma.
- Answered audience questions during a live Q&A and received positive feedback.
- Helped promote the webinar and planned topics for future sessions.

UI/UX PROJECTS – PROFESSIONAL EXPERIENCE

1.Attendance Management System (User | Admin | Super Admin)

Enterprise HRMS workforce management platform for attendance, leave, payroll, and employee operations.

Role: UI/UX Designer

Led end-to-end UI design process including user flows, wireframes, high-fidelity interfaces, design systems, prototyping, and usability-focused solutions.
